

Maintaining Vegetation

The City of Kenmore needs your help to keep sidewalks, walkways and roadways safe and accessible for everyone! Property owners are responsible for maintaining trees, bushes and other vegetation on their property and in the right of way adjacent to their property. Please keep up with your trimming and contact the City if you have questions or concerns.

Hank

Property owners must keep roadways, bicycle lanes, sidewalks and walking paths (4' minimum width) clear of vegetation. Roadways must be clear to a height of 11' and other traveled ways clear to a height of 8'. At intersections, vegetation can be no higher than 2' to allow sight distance. Ditches must be allowed to flow freely. Trimming of vegetation in the right of way is the responsibility of property owners.

If you have any questions, please contact Brett Schock, Traffic Engineer
